

Do it Yourself

There is volunteering and there is setting up your own volunteer opportunity!

At Lizzie Bee we believe in creating a world where art can bring people together, enable social impact and enrich families and communities. We believe that art should be accessible to all; regardless of socio-economic or educational background.

What if you could set up your own community arts project and deliver it as well?

How do you plan it? Where do you start? What about budgets? Is it **fun**? Why social impact?

We give you the opportunity to try and do it yourself. You plan, we support.

In 60 hours we will turn you into a seasoned facilitator.

Project management is a skill that will take you far in life, why not turn it into your CAS project?

We offer a programme rather than just a volunteer opportunity.

In 60 - 80 hours we will take you from how to set up to how to deliver a community arts project. It covers all aspects of project management: from finding your audience, to setting up a quality project, budgeting, purchasing materials, writing lesson plans and delivering workshops effectively.

We will be there to guide you through it and monitor every step very carefully.
